Bekasi, West Java, Indonesia

Information Technology student at President University with hands-on experience building full-stack business applications, internal workflow systems, and self-hosted AI platforms. Experienced in end-to-end development, REST API integration, database design, application security, automated testing, and Linux-based deployment. Combines technical ownership with business requirements analysis, system troubleshooting, and clear communication with non-technical stakeholders.

Education

President University - **Bekasi, Indonesia** Sep 2024 - Dec 2027 (Expected)

Bachelor of Information Technology, 3.54/4.00

- Vice of Art & Sport Division, PUFA Computer Science. Member of PUMA Informatics. Led the GORAKO community project educating 100+ high school students on environmental awareness. Participated in software engineering projects and national hackathons.

Experiences

PT Grahabuana Cikarang (Jababeka) - **Cikarang, Indonesia** Aug 2026 - Present

Software Engineer Intern

- Developed an OCR-assisted water-meter reading Progressive Web App (PWA) to digitize meter readings and reduce manual data entry for field operations.
- Built an internal PDF toolkit with 30 document utilities and 87 automated tests to support document processing workflows.
- Developed booking and billing workflows covering invoice and voucher handling, Xendit integration, and administrative processes across three admin roles.

ASHAR GROSIR PARFUM - **Bekasi, Indonesia** Dec 2025 - Present

Software Engineer

- Built and maintained an internal POS/ERP system using Laravel and PostgreSQL and a public e-commerce storefront using Next.js, React, and Supabase, covering core business operations from inventory to online orders.
- Implemented tablet-first cashier workflows, milliliter-based inventory management with PostgreSQL row locking, branch-scoped access, cash reconciliation, sales returns, installment-based wholesale transactions, customer credit, and loyalty points.
- Automated order management, stock synchronization, expense tracking, and financial reporting for 100+ daily transactions, reducing manual reconciliation time by 60%.
- Developed an AI assistant using tool calling to query live business data for sales, inventory, and profit analysis, with model failover capabilities.
- Implemented security controls including role-based access control, passkey and trusted-device authentication, login throttling, account lockout, audit logging, Content Security Policy, and Cloudflare WAF and Turnstile.
- Deployed and maintained applications on Linux infrastructure using Docker, Nginx, PM2, GitHub Actions CI/CD, and SSL configuration.
- Optimized the public storefront to a Lighthouse Performance score of 96+, with a reported 1.34-second average page-load measurement and 91% Good Largest Contentful Paint (LCP) on real-user data.

GAOTEK INC - **New York, USA (Remote)** Apr 2026 - Jul 2026

Web Development Intern (Remote)

- Built and customized responsive WordPress websites using PHP, JavaScript, Elementor, and Gutenberg.
- Maintained live websites by publishing content, troubleshooting technical issues, and implementing on-page SEO and usability improvements.
- Collaborated with a remote team through weekly technical discussions and progress reports in English using Microsoft Teams.

Organizational Experience

Wanar AI — Personal AI Agent Platform - **Bekasi, Indonesia** Aug 2026 - Present

Founder & Lead Engineer

- Developed a self-hosted AI agent platform featuring multi-provider LLM routing, automatic failover, semantic caching, real-time response streaming, and codebase Retrieval-Augmented Generation (RAG).
- Integrated AI-assisted workflows for email, reminders, and scheduling through messaging and email channels, including Telegram, WhatsApp, and IMAP.
- Implemented security controls including SSRF protection, approval-gated actions, scoped API access, and rate limiting, supported by automated testing.

PUFA Computer Science – President University - **President University, Bekasi, Indonesia** Sep 2025 - Present

Vice – Art and Sport Division

- Led 5+ art and sports activities for 60+ students, raising engagement 40%.
- Directed cross-functional committees for campus events attended by 100+ students.
- Coordinated volunteers, schedules, and logistics across 5+ events to deliver programs on time.

PUMA Informatics – President University - **President University, Bekasi, Indonesia** Sep 2024 - Aug 2025

Member – Students Passion & Talents Division

- Organized 3+ technology events for 100+ students, sustaining 95% attendance.
- Coordinated technical workshops fostering peer collaboration across 3+ events for IT students.
- Supported divisional logistics and knowledge-sharing to strengthen IT skills of 100+ students.

NVIDIA Jun 2026 - Sep 2026

Responsible Disclosure

- Reported a security vulnerability affecting an NVIDIA infrastructure component; the report was validated by NVIDIA and the issue was remediated within 48 hours.

Skills, Certifications & Achievements

- **Programming Languages:**: TypeScript, JavaScript, PHP, Python, C#, Go
- **Frameworks & Libraries**: React, Next.js, Laravel, Node.js, Express, ASP.NET Core, FastAPI
- **Databases & Data**: PostgreSQL, MySQL, SQL Server, SQLite, Supabase, Redis, vector search, semantic search
- **AI & Machine Learning**: AI agents, LLM API integration, RAG, tool calling, multi-provider routing, semantic caching, MCP, prompt engineering, OCR, YOLOv8, OpenCV
- **Cloud & DevOps**: Linux, Docker, Nginx, PM2, GitHub Actions, CI/CD, Cloudflare WAF/CDN/DNS/SSL, Google Cloud Run, Vercel, Firebase
- **Security & Testing**: OWASP Top 10, Burp Suite, Kali Linux, RBAC, CSP, SSRF protection, rate limiting, application hardening, automated testing
- **API & Integrations** (2026): REST APIs, webhooks, Xendit, WhatsApp and email gateways, Telegram bots, Google Sign-In, OpenAPI
- **Tools & Collaboration**: Git, GitHub, ClickUp, Jira, technical documentation, stakeholder communication, technical presentations, live demos
- **Certifications**: Software Engineer Certificate and Frontend Developer (React) – HackerRank; AWS Cloud Practitioner Essentials and AWS Technical Essentials – Amazon Web Services; Google Analytics and Google Ads Search Certification – Google; HubSpot Data Integrations Certification; Belajar Dasar Pemrograman Web – Dicoding
